

KAREEM PASHA

Technical Author | Engineering Documentation Specialist

+91 7676493320 | kareempasha1212@gmail.com | [Portfolio](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Technical Author with 2+ year of experience creating and maintaining engineering documentation for semiconductor manufacturing systems at ASML through Capgemini. Experienced in BOM analysis, NPI documentation, revision control, quality assurance, and PLM workflows. Proficient in PTC Arbortext, Siemens Teamcenter, and MS Visio, with a proven track record of delivering 100+ compliant procedures while collaborating with cross-functional engineering teams.

SKILLS

- **Documentation & Authoring:** PTC Arbortext Editor, Adobe Acrobat, Microsoft Paint, XML, Technical Documentation, Process Documentation, Revision Control, SOPs, User Manuals, Work Instructions.
- **PLM & Engineering Tools:** Siemens Teamcenter and Visualization Pro, Microsoft Office Suit, MS Visio, Siemens NX, Power BI, BOM Analysis, Delta Analysis.
- **Quality & Process:** Quality Assurance, Documentation Validation, Agile Methodology, Lean Six Sigma.
- **Basic Technical Skills:** SQL, HTML, CSS.

EXPERIENCE

Technical Author / Reviewer – *Capgemini, Client- ASML*

July 2024 - Present

- Served as lead reviewer and team focal for documentation quality assurance, coordinating peer reviews to maintain 100% compliance with client and industry standards and delivered 100+ procedures in a span of 4 months.
- Created, revised, and maintained technical documentation and engineering illustrations aligned with industry and client standards.
- Managed documentation updates for New Product Introductions (NPI) by performing detailed BOM and delta analysis within PLM systems.
- Collaborated with engineering and support teams to streamline documentation workflows and improve procedural consistency across multiple projects.
- Collaborated with field engineers to develop new procedures and resolve issues in existing documentation.
- Supported engineering workflow activities involving technical manuals, revision control, and process documentation.
- Conducted documentation validation and quality reviews to ensure accuracy, compliance, and consistency across engineering procedures.
- Worked extensively with PTC Arbortext Editor, Siemens Teamcenter, MS Visio, and internal documentation management systems.

Engineering Intern – *CIM Tools Private Limited.*

Aug 2023 – Sep 2023

- Assisted in engineering drawing analysis and manufacturing process understanding for aerospace components.
- Observed quality inspection and engineering workflow procedures across manufacturing and assembly operations.
- Gained exposure to process documentation, quality standards, and engineering coordination activities.

PERSONAL PROJECTS

Development of Hybrid Hemp Natural Fiber Composite Material for Aerospace Applications.

- Designed, analysed, and evaluated a hybrid hemp natural fibre composite material for lightweight aerospace applications.
- Performed material characterization, engineering analysis, and technical reporting using CATIA V5 and ANSYS.

EDUCATION

Nitte Meenakshi Institute of Technology (VTU), Bengaluru, India - 2020 - 2024

Bachelor of Engineering (B.E.), Major: Aeronautical Engineering

CGPA: 9.41 | Department Rank Holder.

COURSES & CERTIFICATIONS

- ACTIVATE AI Foundation Badge  - Capgemini
- Lean Six Sigma Yellow Belt — AIGPE
- GD&T Basics — Udemy
- Siemens NX Mastery — Udemy
- Microsoft Excel Beginner to Advanced — Udemy
- Rapid Manufacturing, Product Design and Manufacturing — NPTEL IIT Kanpur
